

What Makes Us Different?

We don't pretend to be something we're not. We're ranchers. And we just want to share this unique experience with you.

The Rowse family is part of a long history of ranchers. Jerry is a 6th generation rancher, and his family has been ranching in this area since 1884. Today Jerry, Tammy and Kyle run Tammy's parents' and grandparents' land along with their own, including more than 600 pairs plus all the horses.

It's a land where neighbors have lent a helping hand for generations. A place where the front door is always open and fresh coffee's waiting.

Please be aware, we are an adults-only ranch. We prefer guests to be at least 18 years old.

A Real Working CATTLE Ranch

The Rowse family welcomes you!

Where YOU can be a Cowboy!

Howdy Y'all!

Welcome to Rowse's 1+1 Ranch. We are a REAL working cattle and horse ranch located in the scenic, rolling hills of Nebraska. Our spread is made up of over 7000 acres. What we are not, is a fancy resort or a traditional dude ranch where you ride head-to-tail all day long. At our ranch, you ride with the herd and do whatever needs to get done.

Bunkin' Down & Chow

Guests sleep in our cozy log cabins complete with private baths and entrances or in the main lodge which has two bedrooms and a shared bath. You'll enjoy three, hearty, home-cooked meals a day. This is beef country, so prepare yourself for some of the most mouth-watering, tender cuts you've ever tasted. Vegetarians are also welcome.

"Words cannot describe the great time we had with you all. The food, fellowship, horses & spectacular scenery were beyond expectations." — G & A Barnes, JR

The Cowboy Experience

If you've ever dreamed of being a REAL cowboy and doing the stuff that REAL cowboys do, you're in luck. We can make your dreams come true. We can't promise it will be as glamorous as you dreamed, but we like it. If you're not an expert rider, don't worry, we'll help you out and make sure to put you on a horse that's suited to your abilities.

Ridin' & Ropin'

Spring brings the excitement of calves and foals being born. Summer ushers in cattle drives, working cattle, cowboy socials and team-roping. October is fall Round-Up, which involves long cattle drives. When the work is done, kick back, and put your feet up in front of a fire. You can also try your luck at team penning or sorting.
